Meet Nancy Paul

I'm a parent just like you who wanted the best college education – at the best price – for my 3 girls. I spent hundreds of hours figuring out how merit scholarships work, where to find them, how to qualify for more, and other strategies to pay less for college.

What happened is absolutely amazing.

Together, my three girls won \$600,000!

I quite literally wrote the book on merit scholarships. My book, *The Little Book about Scholarships*, became a best-seller in August 2014.
